

15th Conference of Master and PhD Students
13th of May 2010

Information Society and University studies IVUS 2010

Conference *Information Society and University Studies* (IVUS) is the continuation of the series of annual conferences organized in succession by the three Lithuanian Universities: Vytautas Magnus University, Kaunas University of Technology and Vilnius University Kaunas Faculty of Humanities. The aim of IVUS 2010 is to stimulate the cooperation and create forum for discussions between Master, PhD students and commercial institutions in such a way helping to find new opportunities for research and career. As a tradition conference takes place in the Lithuanian city of Kaunas.

Conference topics:

- Artificial Intelligence and Knowledge Engineering
- Bioinformatics
- Business Process Modelling, Analysis and Design
- Computer Networks
- Computer Graphics
- Databases
- Dependability
- Formal Analysis and Design Methods
- Hardware
- Human Computer Interaction
- Information Retrieval
- Information Systems Management
- IT in Teaching and Learning
- Modelling and Simulation
- Operating Systems
- Programming Languages
- Robotics
- Security
- Signal Processing
- Software Engineering
- Systems and Control Theory
- Algebra and Number Theory
- Stochastic Processes
- Differential Equations and Computational Mathematics
- Geometry
- Mathematical Modelling
- Probability Theory and Statistics

Conference languages – Lithuanian and English

Important dates	2010 04 05	papers submission deadline
	2010 04 23	notification of acceptance
	2010 05 03	conference program
	2010 05 13	conference

Steering committee	T. Krilavičius (chair), Informatics dept., Vytautas Magnus university
	S. Pečiulytė, Informatics dept., Vytautas Magnus university
	A. Vidugirienė, Informatics dept., Vytautas Magnus university
	D. Kuliešienė, Informatics dept., Vytautas Magnus university
	A. Davidsonas, Informatics dept., Vytautas Magnus university
