The 2011 FTRA International Workshop on Human centric computing, P2P, Grid and Cloud computing (HPGC-11) will be held in Jeju, Korea, December 12-15, 2011.

HPGC-11 will be the most comprehensive workshop focused on advances in Human centric computing, P2P, Grid and Cloud Computing for Future Computing Environment. In this workshop, HCI, Cloud, Distributed and Grid Computing community researchers are encouraged to join the workshop to benefit from the presentation of results from their researches in terms of applications, concepts, implementations, standards and industrial case studies.

Topics

Original contributions, not currently under review to another journal or conference, are solicited in relevant areas including, but not limited to, the following:

Track 1. Human Centric Computing
 * Human-computer interaction and User-centered Design
 * Social computing and social intelligence
 * Ubiquitous computing and mobile systems
 * Gaming and Semantic Systems
 * Computer-assisted Learning and Cognition
 * Information Visualization and Visual Analytics
 * Foundations of Information Science like Information Theory, AI, and Soft Computing
 * Applications with Image Processing, Computer Vision Systems, etc.

Track 2. P2P, Grid and Cloud Computing
 * Cloud Computing
 * Grid Computing
 * Peer to Peer Computing
 * Green Computing
 * Security and Trust Issues in Cloud and Grid Computing
 * Platform and Infrastructure in Cloud and Grid Computing
 * Grid Network its Servicess and Applications
 * Economic-based and Utility computing models in Cloud and Grid Computing

Submissions and Proceedings

Submission Guidelines :
Papers must strictly adhere to page limits (8-10 pages for Full Papers, 4-5 pages for Regular Papers). Papers exceeding the page limits will be rejected without review.

Proceeding and Publication :
The final versions of ALL accepted papers in the conference/workshop will be included in the special issues of SCI/E indexed international journals for full papers and Journal of Information Processing Systems (KIPS, KCIE-indexed) for regular papers.
The high quality papers (about 50%) will be recommended as SCI/E indexed journals. In case of conference proceeding, only presentation materials (ppt slides) for the accepted papers will be only included. (**Same as the way of WCC 2010 publication**).

 * Cluster Computing Journal – Springer (SCIE)
 * Computers & Mathematics with Applications (CMa) - Elsevier (SCI)
 * Computers & Electrical Engineering (CEE) - Elsevier (SCIE)
 * International Journal of Communication Systems (IJCS) - Wiley (SCI-E)
 * Human-Centric and Information Sciences (HCIS) - Springer
 * International Journal of Information Technology, Communications and Convergence (IJITCC) – InderScience
 * Journal of Information Processing Systems (JIPS) - Korea Information Processing Society
 * Journal of Convergence (JoC) - FTRA Publishing

All submissions must be made **electronically** : http://www.editorialsystem.net/hpgc2011/
