Call for Participation

The 2010 edition of the European Conference on Software Architecture (ECDSA) will feature a wide range of high quality and innovative contributions to the software architecture area. The conference program will include 3 keynote talks by eminent speakers, 19 full research papers, 20 emerging research papers, 1 research challenge papers, and 3 tool demo papers. In addition, there will be a doctoral symposium, 5 workshops and 5 tutorials during the ECDSA 2010 week. ECDSA 2010 organizing committee invites you to join a vibrant gathering of academia, researchers, and practitioners for discussions and exchange of views on different aspects of software architecture.

KEYNOTE SPEAKERS

Architecture in the Age of Compositionality, Jan Bosch, Intuit, USA.

Where did all this good architectural knowledge go?, Philippe Kruchten, UBC, Vancouver, Canada.

REST Style Architectures in Practice for Building Very Large Scale Enterprise Systems,

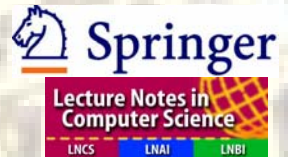

Jim Webber, ThoughtWorks, UK.

WORKSHOPS

- **EcoSyst:** 2nd Workshop on Software Ecosystems
- **MeSSa 2010:** 1st International Workshop on Measurability of Security in Software Architectures
- **NW-MODE 2010:** 8th Nordic Workshop on Model Driven Software Engineering
- **VARI-ARCH:** 1st International Workshop on Variability in Software Product Line Architectures
- **WISAD:** 1st International Workshop on Imperfect Information in Software Architecture Design

TUTORIALS

- Architectural rendering with ISO/IEC 42010
- The DCI Architecture: Lean and Agile at the Code Level
- Requirements Engineering Meets Architecture - An Integrated Approach
- Architecting Multi-Agent Systems
- Software Architecture Knowledge Management in Practice
